Heater Control Valves Application Guide

Introduction..... 1

Application Guide..... 5

Heater Tap Control Valves Specifications 17

Introduction

Since commencing operations in Australia in 1979, Dayco Australia has grown rapidly.

Dayco is a global leader in the research, design, manufacturing and distribution of essential engine products, drive systems and services for automobiles, trucks, construction, agriculture and industry.

Dayco's contributions are integral to how people get from place to place, goods are transported, food is harvested, and infrastructure is built. The company operates according to long-held values — keeping promises, delivering on time all the time, and an intense commitment to service no matter what the obstacles. For more than a century, Dayco has overcome challenges, emerging stronger and smarter at every turn.

Dayco improves how the world moves by creating products, systems and relationships that endure.

Move Forward. Always.™

Markets

Dayco Aftermarket – manufactures and distributes belts, hoses and related cooling system components for virtually every automotive, light commercial, ATV, Scooter and heavy duty application.

Research and development

Dayco's involvement in both the original equipment and Aftermarket segments of the business give the company a distinct competitive advantage. As a major supplier to automobile manufacturers, Dayco OEM engineers are developing future automotive technologies that are quickly incorporated into our aftermarket products. This connection enables us to bring quality replacement products to today's Aftermarket that meet or exceed OEM standards.

Manufacturing

At the Dayco manufacturing facilities, quality is built into every product because of our quality-in-process systems. These systems employ closed-loop, computer monitored and controlled quality checks at critical

points throughout the manufacturing process. All manufacturing plants are certified to quality standard TS16949 and environmental standards ISO 14001.

Most importantly

As a customer responsive company, Dayco Aftermarket sees each of our individual customers as the judge of our quality both in products and service. By meeting and whenever possible, exceeding customer needs, Dayco Australia Aftermarket constantly renews our commitment to every customer's ultimate business success.

Management system policy statement

Dayco Australia Pty. Ltd is a supplier of world-class automotive products, primarily under the Dayco brand name. Dayco product line-up includes OE systems, sub-systems and components in the areas of power transmission and fluid transfer, drive belts, timing belts, tensioners, pulleys, harmonic balancers, all types of automotive hose and other cooling system components. The Dayco team is dedicated to the ongoing maintenance of our management systems throughout the company and in concert with our suppliers, customers and appointed distributors. The management systems require commitment to providing products and services that consistently meet our customers' quality and environmental needs and expectations and to continuously improve in all that we do.

At Dayco Australia, we are committed to achieving the following organisational objectives:

- Implementation of continuous quality and environmental ethics and standards that are appropriately communicated and clearly understood by all employees.
- Setting objectives and targets that demonstrate a commitment to the continual improvement of our quality and environmental performance.
- Maintaining management's commitment to the prevention of pollution and compliance with legal and regulatory requirements, and other requirements relevant to our industry, conventions and local

community.

- Providing a work environment conducive to employee involvement and empowerment through teamwork.
- Providing training necessary to support and enhance the continuous improvement process.
- Establishing a work environment that stimulates and promotes open two-way communications with our customers, employees and suppliers.
- Ensuring the ongoing effectiveness and suitability of our management systems through planned internal and external audits and management reviews.
- To make this Policy Statement freely available to all interested parties.

Dayco Management Systems have been audited and certified by an independent authority to comply with current automotive and environmental international standards.

All employees will be encouraged to contribute to the development and improvement of the management systems through their work teams. Once authorised, management systems requirements must be consistently observed and adhered to by all employees.

About this guide

This GUIDE has been produced to assist purchasers of DAYCO automotive products. Whilst this guide is intended to be accurate, persons using this guide do so using their own expertise and judgement (including as to the fitness of the products for the particular intended use) and at their own risk. If in doubt about your ability to follow this Guide or to safely install the products in your particular application, arrange for the work to be undertaken by a trained mechanic. Dayco Australia Pty Ltd is not responsible for any death, injury, loss or damage suffered as a result of, or in relation to, this Guide (whether by negligence or otherwise) unless liability cannot be excluded by law. Where liability cannot be excluded, liability is limited, to the extent allowed by law, to the replacement of the DAYCO product.

The trademarks, logos, characters, images and service marks (collectively "Trademarks") displayed on this catalogue belong to Dayco IP Holdings, LLC.
